Transcriber's Office
FLOOR DEBATE

February 3, 2003 LB 385

you said that, the narrow language in there is actually a little troublesome for that kind of proposition, so I think you need to, to spread it out, make it a broader definition for the smaller communities, but allow the bigger communities some sort of increased dollar amount based upon the fact that, you know, it's just serving a lot more people.

SENATOR JANSSEN: Senator Beutler, another thing we should think about is the fact that a \$500,000 grant would go a long ways in the city of Fremont. That would...that money would be there the end of this year, and once you've made that grant application, I'm not too sure how the bill read, whether you...I think you get a one-shot deal. So if the city of Lincoln's is, say, down the road another 6, 8, 10 years, according to my chart here, then, you know, there's going to be...this fund will keep growing then, after the first, say, the first grant application, and if it's awarded. That doesn't mean that that's going to keep coming out of there all the time. It's a one-shot deal. Now, if the city of Fremont is happy with a \$500,000, or Kearney or whoever it would be...I'm not sure that Fremont ever wants one but it was brought to my attention by the league that, you know, we need to protect this. So after that period of time, if Lincoln waits five, six years till they need, then there would be a sizable amount in there. It's a one-shot thing. It doesn't carry on through the rest of...throughout time that you're going to keep getting this \$500,000. Do you understand the way I'm tracking on that now?

SENATOR BEUTLER: I think so, Senator, and, you know, if that can be structured I would have no disagreement with that. I mean, I assume you're talking about raising it, the Lincoln cap, from somewhere above \$500,000 but maybe it comes later in time.

SENATOR JANSSEN: Um-hum.

SENATOR BEUTLER: But a couple of things to think about; first of all, I suppose if one were going to put oneself voluntarily at the end of a line you'd like to know that there's still some potatoes in the tray when you get through the line, you know?

SENATOR JANSSEN: Um-hum. Um-hum.
